At the end of September the funding came due - per Linda money sitting there.

Per Jim Stewart they are working very hard for restructuring the daily school schedule to meet the Michigan Merit. This will be the last year for 6 hour which could affect the athletic program as they are looking possibly for a 7th hour and possibly going to trimester.

Tom Dudash, Grosse Ile parent, did a brief introduction and presented his professional services as a photographer and had pictures from a track meet that he was giving to Jim Stewart to review as a possible vendor to come in and take photos of different sporting events to offer parents the opportunity to purchase after the event. His service is similar to what competitive cheer and last year's winter basketball tournament had at each event. Listened to what was said and closed with Jim Stewart getting the disk for review.
